

# AERONAUTICAL DEVELOPMENT ESTABLISHMENT

New Thippasandra Post, Bangalore — 560075

Date: 26 May 2008

## To whom so ever it may concern

We are the proud owners of TIG Welding System 500sq AC/DC supplied by Technocrats Plasma Systems Pvt. Ltd. Mumbai, Thane from 19/11/2007. We are extensively using this machine to weld precision aeronautical assemblies / sub assemblies and it has given satisfactory results. The technical support and after sales service is excellent.

The training provided by the company to our Technicians is very good.

We hope that the Company comes out with better products to serve the Engineering community.
